**Summary of reasons  
for classification:**

The DVD entitled *Jesse Jane: Erotique* is classified as:  
 Objectionable except if the availability of the publication is restricted to persons who have attained the age of 18 years.

The DVD contains a feature identical to a publication previously examined and classified as "objectionable except if the availability of the publication is restricted to persons who have attained the age of 18 years", with the descriptive note "Contains explicit sex scenes". This decision was registered on 18 February 2004.

This DVD contains a number of additional components not present on the previous publication including trailers for other sexually explicit DVDs, a series of still photographs, and other material that provides background information and context for the feature. One trailer has a menu that leads to a number of short advertisements for interactive DVDs. However, this additional material does not provide grounds to alter the classification given to the original publication.
